	Nicole and Simone met with Wattle Range Council, the Greenrise Advisory Committee and Nathan Seal (Penola Caravan Park) at the new site location – Greenrise opposite the Penola Coonawarra Caravan Park. Wattle Range Council need to do a masterplan around the land usage. Wattle Range Council have provided the advisory committee with Google maps of the land but will also supply drone imagery so that they can start mapping out future use. This will then be supplied to RBCA for comment for the plan to begin.	
	Nathan has been speaking with a company that can do the pump track design process free of charge saving about \$40,000.	
	Simone and Nicole met with Justin and Matthew from Sport and Rec around potential projects for sport and rec in the area. We presented them with a folder including all of the project information to date for the pump track. We also discussed potential for Greenrise to be used for other recreational activities such as kayaking, fishing etc (if the lake was filled) and a high ropes course off of trees. They were very interested in bigger picture thinking projects. There is currently grant money available for the next 3-5 years from the Office of Sport and Rec matching \$ for \$ up to \$500,000 per year. The \$35,000 that we have from Beach Energy and any inkind support can contribute towards this. The Office have suggested we also seek significant funding from large local businesses. Wattle Range Council will need to also support any projects in some significant way. What the Council deems 'significant' is up to them.
